

# **Year 1 - Home Learning**

## **Magic, Wonder and Enchantment**

Every day – Read your reading book at home.

Every week – Count in 2s, 5s and 10s. Keep practising your number bonds to 10.

Practise reading and writing the Year 1 Common Exception Words.

Choose some activities to complete at home to help with your learning about our topics this half term.

		
<p>What fairy tales/traditional tales have you read before? Which one is your favourite? Why? Draw a picture of your favourite character from the tale.</p>	<p>Create a puppet show and perform it to your family. Think about the different voices you will need to use for the different characters.</p>	<p>In Science, you will be learning about and exploring different materials. Watch this clip about materials <a href="https://www.youtube.com/watch?v=xOKr462HLc0">https://www.youtube.com/watch?v=xOKr462HLc0</a></p>
<p>In Geography, you will be carrying out simple map work. Can you look at a map of your local area? Can you follow a direction from your house to a place of your choice with your family?</p>	<p>Imagine you are on a walk and you come across a troll! What would you say to them? Write a speech bubble with what you would say.</p>	<p>Can you dance like a prince or princess? What type of music would you dance to? What sort of movements would you do?</p>

Don't forget to take photographs of your home learning and send them to your class teacher via the school office.
