

Proposed Spencers Wood Site

Although we are still in the informal consultation stage, Ms Alder and Miss Amor went to visit the proposed Spencers Wood site.

By a very residential area...

Opposite a play park

Site as it currently is...

Pedestrian
paths down
both sides of
the school...

A bus lane...

A bus stops right on the corner...

The developers shared plans for the site and it sounds really exciting. They walked us to where the entrances will be; and pointed out where the school building, playgrounds and MUGA will be. Of course, this is at the early stages and is still under consultation.
